

THESIS DISSEMINATION AUTHORISATION FORM

This authorisation form complements and details the provisions laid out in the thesis charter that applies to all theses defended at the University of Lille from 1 September 2020 onwards. The charter is available here: <https://doctorat.univ-lille.fr/phd-studies/>. By signing this document, the author acknowledges having read the provisions of the charter. Except in the case of a confidential thesis, it is a requirement to disseminate the thesis within the university and the entire university community (decree of 25 May 2016).

I, the undersigned

Certify that I am the author of the thesis entitled
.....
.....
.....
Defended on

Declare that the digital version is identical to the version approved by the jury at the defence;

Commit to making any major corrections requested by the jury before the final deposit, if the jury requests such changes;

Am the owner of the intellectual rights of all the contents of the thesis, and if I am not, I commit to choosing the appropriate level of dissemination;

Choose the dissemination of the thesis from among these 4 possibilities:
 Consent to dissemination of my thesis in open access immediately after the defence;
 Consent to dissemination in open access at the end of an embargo period, after/...../..... ;
 Consent to dissemination in open access of a partial version of the document (in the case of the reproduction of third-party works without having had the rights to them; there would then be two versions, a partial version for dissemination, and a full version for long-term archival storage);
 Refusal of dissemination in open access.

An embargo is a period of time freely defined by the author, during which the thesis is only accessible within the university community (restricted dissemination). When the embargo expires, the document is automatically disseminated on the internet (dissemination in open access).

The author can, at any moment, modify the wider dissemination authorisation given to the university by sending a registered letter with notification of receipt (lettre recommandée avec accusé de réception) to the director of the university

libraries (Service commun de la documentation). The thesis will be removed from any sites where it is visible within one month of the date on which the letter is received.
